Optics Balzers Now Producing in Malaysia

Business in Asia is booming; Optics Balzers has established the production facilities at the new site in Malaysia as scheduled and has initiated the first test runs.

In early September, Optics Balzers has started to establish production with around 30 new employees in Penang on the west coast of Malaysia. According to Alex Vogt, CEO of Optics Balzers, it is becoming increasingly clear that the strategic decision to establish ...

Laser Mirrors for ultra short pulses in the femto-second range successfully qualified

Optics Balzers AG excels in the production of laser mirrors for high-precision material processing

Processing materials by laser pulses in the nanosecond range has become standard in industry. Ever smaller and more precise structures can be made by latest laser technology, which...
