

## Laser World of Photonics, Shanghai

Visit us at our booth no. 1616 in hall N1 from March 14-16, 2017 and meet with our experts for specific advice.

We are pleased to present our latest products in the field of:

- Laser Optics
- TOF Camera for Gesture Recognition and Control
- Bandpass & UV Filters

Discover unique solutions and the wide variety of applications for optical coatings and components. We are looking forward to welcoming you as our guest.

Please follow the link to get more information and to request free admission.

## Micro-Patterned High-Performance Optical Filters

Patterned PARMS filters for most challenging spectral characteristics

Many applications, ranging from space-born hyperspectral cameras to color sensors and automated sorting systems employ patterned dielectric filters. The more sophisticated these applications, the higher the need for complex optical filters with steep spectral edges and deep, broadband blocking...

## Laser Mirrors

The product program for Laser mirrors includes standard components as well as customized laser beamsteering mirrors. Based on high performance technologies like IBS manufactured coatings, we are able to supply high reflective mirrors. The reflectivity is larger than 99.9 % from 0° to 45° at 1064 nm for all polarizations...

## Optical Filters for UV Applications

All-Dielectric UV-Filters from 200 nm to VIS Range

Optics Balzers provides custom-tailored all-dielectric UV-filters from 200nm to the VIS range. High transmission Bandpass filters, steep edge filters and various other filters are available on request...

## Our next Events...

### Biotechnica & Labvolution, Hannover

Optics Balzers has been the preferred partner for innovative optical solutions for more than 70 years. As a global leader, Optics Balzers focuses on high-tech markets including Biophotonics.

Visit our booth # D11/1 in hall 020 at the show from May 16-18, 2017 and get more information [here](#).

### OPTO, Taiwan

We have the pleasure of welcoming you to Optics Balzers AG at Opto Taiwan in Taipei City, Taiwan from June 14-16, 2017.

Come to our booth to discover unique solutions and the wide variety of applications that optical coatings and components allow. We look forward to welcoming you as our guest.

### Laser World of Photonics, Munich

Visit us at our booth 405 in Hall B1 from June 26-29, 2017 and meet with our experts for some specific advice.

Please follow this [link](#) to get more information and to request free admission.
